

THE "HONOR ROLL" NATIONAL BANK

ABOUT one year ago the surplus profit fund of the First National Bank of Barbourville, reached the sum of \$25,000.00, the same amount as the capital. This placed this Bank on the "Honor Roll" of National Banks. There are only about nine such banks in the whole State of Kentucky. The surplus profits of this Bank now amount to more than \$30,000.00. This is the only "HONOR ROLL" National Bank in Southeastern Kentucky. Recently the First National Bank received a Sheep Skin Diploma showing that it was placed on the "Honor Roll" of National Banks. This ought to mean something to the man who thinks, and who wants to place his money with a safe, successful and conservative National Bank. We want your business, and promise fair, and courteous treatment.

First National Bank,

**Contributors to the Fund
Are Requested to Give
of Their Means to Make
Up the Deficit.**

The G. A. R. meet is over it was a great success. We not only pleased the old soldiers, but put our town on the map. We find in looking over the list of the names of those who contributed of their means to make this a success only ten persons. Many of you have not been called upon to give. We lack \$98.67 of having enough money to square everything up. We now call upon the merchants and citizens to contribute something to this fund. There is no good reason why we should stand back and let a few people bear all this burden. Let all of us do our part. You say you want to honor the Old Soldiers and you were proud of the showing made by Barbourville. Now let us see how much you are really interested in these matters. We shall publish a list of the names in next week's issue, of all who contribute to this fund. Hand your subscription to The Mountain Advocate before next Wednesday evening. Very few of our merchants or citizens have contributed to this enterprise. This was an affair for the whole town and all who are able should willingly contribute something. We must raise \$98.67 to finish paying all bills. Please come forward and help. The flags, bunting and other decorations, were kept in good shape, having been taken down and put away for future occasions.

THE "WILSON TANGO"

1913 A RECORD YEAR IN TIMBER PRESERVATION

The most notable progress yet recorded in the chemical treatment of timber to prevent decay was made in 1913, according to a report recently issued by the American wood preservers' association in cooperation with the forest service of the department of agriculture.

The report states that 93 wood-preserving plants in 1913 consumed over 108 million gallons of creosote oil, 26 million pounds of dry zinc chloride, and nearly 4 million gallons of other liquid preservatives. With these the plants treated over 153 million cubic feet of timber, or about 23 per cent more than in 1912. The output from additional plants unrecorded would increase the totals given.

Impregnation of wood with oils and chemicals to increase its resistance to decay and insect attack, the report goes on to say, is an industry which has become important in the United States only in recent years. In Great Britain and most of the European countries practically every wooden cross-tie and telephone or telegraph pole receives preservative treatment. In the United States less than 30 per cent of the 185 million cross-ties annually consumed are treated, and the proper treatment of an annual consumption of 4 million poles may be said to have scarcely commenced.

Real progress in the United States dates from 1882, when the kyanizing process, using bichlorides of mercury, was developed. In 1887 two other processes were introduced, the Burnett process using zinc chloride, and the Bethel process using coal tar creosote. These last processes are very largely in use today.

The idea of timber preservation at first made very slow growth in this country, on account of the large supply of cheap and durable timber and the general disregard shown toward economy in the use of natural resources. In 1885 there were only three pressure plants in the United States; and in 1895 only 15. Since then, however, the industry has grown rapidly; in 1913 there were 117 plants.

Judge Alcorn Buried

Tuesday

On last Tuesday Judge J. W. Alcorn, who for many years practiced in the Knox Circuit Court, representing the Louisville and Nashville Railroad Co., for thirty years, in most of its most important and hard fought cases, was laid in his last resting place in the beautiful city cemetery at Stanford, Ky., his native town. It was stated by many that it was the largest funeral had there for many years.

Judge Alcorn was a man with many sterling qualities. He has been active in the many walks of life, as an attorney he had few equals, as a good citizen he had no peers, he was a soldier in the southern cause and was a member of Morgans Cavalry and fought for the cause of the Confederacy with gallantry until captured by the Federal forces. After the civil war was over he was returned to his home and friends and began life anew, forging to the front not only at the Lincoln County Bar, but in all the courts of this Commonwealth. He was known and loved by all the officers of the Mountain counties, and he knew our Mountain citizens and his esteem for them was never doubted, and their love for him was shown Tuesday morning when the citizens of Eastern Kentucky began at Middlesboro to flood train No. 22, and as the train rounded curve after curve and reached Pineville there was another evidence that Judge Alcorn was not forgotten, and as that same train reached Barbourville there was her delegation waiting to go to Stanford to do honor to the memory of the man we loved. At Corbin we boarded a special train that carried the mountain delegation to Stanford under the personal direction of Hon. O. B. Hollingsworth, Supt. of the C. V. Division; the train was in charge of E. Hansel, conductor, and J. T. O'Mary, engineer.

The funeral was held at the residence, Rev. P. L. Bruce, Pastor of the Presbyterian Church, at Stanford, and Dr. E. M. Green, Pastor First Presbyterian Church at Danville, conducting the services. The floral offerings were beautiful and were fitting to the character of the man.

This ends the chapter of the life of a useful and honored citizen of our country, as must finally come to all, yet we feel that he has gone to the Great Camp Ground beyond the blue, there to meet his old comrades and other loved ones who await his coming.

Those who went upon the special train were as follows:
O B Hollingsworth, R J Johnson, J E Sampson, R L Maddox, K J Francis, M H Rowan, G A Payton, B H Perkins, A F Purcell and T D Arnold, of Middlesboro; J C Jones, B A Fuson, Bob Van Beber, H C Rice, W H Helton, D B Logan, I G Leabow, C Harst, D C Burchfield, William Ayres and C W Metcalf, of Pineville; H C Faulkner, W H McDonald, W W Tinsley, J G Tye, William Tye, P D Black, W C Faulkner, W A Stanfield and J D Black, of Barbourville; W L Brown and G F Brock, of London; W O Dille and Fred Owens, of Livingston; L W Bethurum, Edgar Albright, J W Brown and wife, G M Ballard and wife, E R Gentry and wife, A G Lovill, Willis Adams, R E Mullins, C D Sutton Mrs Georgia

BOSWORTH'S ROAD

**LAW ROBS THE TAX-
PAYERS OF KNOX
COUNTY OF OVER
\$2,000.00 EVERY
YEAR**

Section 157 of the State Constitution provides and the Court of Appeals has frequently held that the tax rate for a county, exclusive of the school tax shall not exceed in any year 50 cents on the \$100.

In the recent case of Hammond vs Lester decided by the Court of Appeals on May 29, 1914, the Court said:

"The power conferred upon the fiscal courts of the several counties of the State to levy taxes, must be exercised by them according to the provisions of the Constitution of the State and within the limitations imposed by that instrument; and when it is therein declared, as in section 157, that the tax rate for a county, exclusive of the school tax shall not exceed fifty cents on the hundred dollars, its fiscal court in making the tax levy cannot exceed that amount. The constitutional provision imposing the limitation upon the power of the fiscal court to tax property of the citizens of the county is mandatory and must, therefore, be obeyed."

The following certificate from the Clerk of Knox County shows that the citizens of Knox County are taxed to the limit, and that it would be impossible under the law to tax them further:

Stats of Kentucky
County of Knox.)
I, Read P. Black, Clerk of the Knox County Court, do hereby certify that the county tax rate, exclusive of the school tax, for Knox County Kentucky for the year 1914 is 50 cents on each one hundred dollars worth of taxable property therein.

R. P. Black, Clerk,
Knox County Court.

By John H. Davis, D. C.

That being true the tax-payers of Knox County will lose each year, without the hope of recovery the \$2,078.70 her citizens are forced to pay by the Bosworth law as a state road tax. She cannot tax herself further as she is compelled by the Bosworth law to do, to get any part of the state aid funds. Our money will go to build roads in other sections of the State.

If Bosworth under his signature in the Mountain Advocate, will, or does deny this statement, Powers will challenge him to a joint debate in the Court house in Knox County before August 1st, and will prove to the citizens of Knox County the truth of the above statements.

Edward England, who is Teller at one of the Atlanta, Ga., banks, writes that the business for one day at his bank amounted in deposits in the sum of \$583,000.00, and this was in a Democratic city under a Democratic administration.

There will be preaching at the court house at the usual hour next Sunday morning. The subject of the sermon will be "How the Holy Spirit Influences Men." Masonic Banquet

Wednesday night of last week there was a most sumptuous and beautiful banquet served by Mountain Lodge, No 187, at the Hotel Jones. While the audience was not as large as were expected, though there were nearly 100 participated in the affair, to say the least of it, it was a success, nevertheless there were some disappointments in the absence of some of the speakers who were slated for the occasion. The entire audience were young people, with the exception of some five or six of the older ones whom we hope will never grow old.

Dr. V. V. Anderson Back To the Haunts of his Boyhood Days.

Dr. V. V. Anderson, who left this county more than ten years ago, arrived in this city Monday with his wife and little daughter, Pauline Herndon, to visit his mother, Mrs. Payne, on Depot street.

Doctor Anderson, like many of the Knox county boys, has made his mark in the world, he went from here to Lynchburg, Va., where he entered into the practice of medicine, but that city was too small for Doctor Anderson. He is at this time one of the Faculty of Harvard University, having gone there, or rather to Boston, Mass., and he holds the position of Criminalist for the Circuit Courts, for the city of Boston.

We are proud that we have such young men as Dr Anderson [that we can contribute to the great makeup of these United States. He is made of the kind of metal that knows no defeat in anything that he undertakes, and we are sure that there is a greater future for such young men as he.

NOTICE!

A new voting precinct is hereby created out of the Girdler Precinct of this county, and includes the following boundary:

Beginning on the top of the Ridge in the head of Little Richland creek at the Stinking creek gap, including John Mills' farm; thence running with top of ridge between Richland creek and Spruce Pine Branch, so as to include Green Briar branch, and down said ridge to the first ford below John G. Jones' on the Goose creek road; thence across the creek and running up the ridge to the top so as to include Anthony Mills' farm; thence running with the ridge around to the Buncom branch gap; thence running up the ridge to the division line between Girdler and Black's voting precinct; thence with the old Girdler line to the beginning. Said precinct to vote at the old Payne place, and be known as Payne Precinct No. 23. The old Girdler precinct voting place will be near the mouth of Hammons' Fork of Goose creek.

Sawyer A. Smith To Hold Over

Hon. Sawyer A. Smith, the Assistant United States District of Kentucky, with headquarters at Covington, has been asked to hold his position under the Democratic administration, and has consented to hold same until first of the year, at which time he intends to resign. This position is a hard one and requires some experience, and Mr. Smith has made good, and they realize his worth, and request him to hold the position. He has also been appointed special United States District Attorney, by Mr. McReynolds to go to Virginia to try some very knotty cases in that State.

A picnic party composed of Mesdames C. W. Meally and B. P. Cottongim, Misses Carrie Davis and Myrtle Mae Critchfield Messrs. C. W. Meally, Dan Herndon, Dr. Leslie Logan, Earnest Faulkner and W. B. THE DECEASED CHILDREN

Pathetic Figure on the Strand.
There is an old man who patrols
the streets of London daily in quest
of a vanished daughter. Few fre-
quenters of the Strand can have failed
to observe him. He is a pathetic
figure, with his leggings, his top hat,
which has seen better days, and the
written placard which advertises to
the world his mission in life.—London

Advice.
Don't train exclusively with your

\$100 REWARD
FOR WOMEN'S BRAINS

Every Housekeeper in America
has a Chance to Win It.

We are continually seeking ideas to develop a
new Quaker Valley Household Labor Saver or
improve an old one. We have recently just re-
cently conceived it—learned to turn to women
instead of men for this sort of assistance. And
that's the story in a nutshell of how the Clara
Kling Clothespin Bag came into being. We
paid a woman a handsome
sum for this invention. And
yet it's such a simple notion!
You'll wonder why you did
not think of it yourself. The
reason probably is that you have never been
properly encouraged to use your inventive talent.
Now we want you to try it for every
housewife in America. Now we also manufac-
ture the 200-PILE SCRUBBER, that wonder-
ful little machine that takes all the hard work out
of keeping the house clean—no more lame backs,
no more sore hands, no more sweating and wear-
ing the life out of the hands and knees to clean a
floor.

The Standup Scrubber is a man's invention.
But wouldn't it be a glorious achievement to the
credit of a woman if YOU
could improve it. We revere
this to perfection, notwithstanding
it is to be made into a
practical scrubbing ma-
chine on the market.
We know you will be delight-
ed to work with the Standup Scrubber,
and let it be possible for
you to change or add to
any little change or addition
that would make it more ef-
fective. Now for every such sug-
gestion that you send us, and
that we adopt, looking to the
improvement of the Standup
Scrubber, or the Clara Kling
Clothespin Bag, we will give
you a prize. If for any
other idea that
we accept and
develop into an
article to make housework
easier, we will
give

One Hundred Dollars in Gold
Every lady who sends a Standup Scrubber is en-
titled to draw for a chance to win a prize of \$100 in gold.
With every Standup Scrubber in the bag will be in-
cluded a ticket. When you send in your suggestion
you must give the date of the patent stamped
in each article. The date of the dealer from
whom you purchased them, and your sugges-
tion to improve the Standup Scrubber, or the Clara
Kling Clothespin Bag, must be sent to us. Buy your
Standup Scrubber and Clara Kling Clothespin Bag
free from your dealer. The price is \$1.50

Not all dealers sell the Standup
Scrubber, so, if you wish, upon re-
ceipt of the price, we'll ship you one
by parcel-post, prepaid, and include
a Clara Kling Clothespin Bag free
of charge. Remember, if you have
any good labor-saving notion for
the home, it is worth \$100 in gold,
provided you are an owner of a
Standup Scrubber.

A RURAL VACATION

GO TO KANSAS AND
MISSOURI

A "rural vacation" is the Wilson administration's latest proposed plan for the thousands of workmen who have been thrown out of employment by the gen-

eral industrial depression. For a while, Mr. Wilson said the general slump which followed the passage of the Democratic tariff law was merely "psychological." Now, through Secretary Wilson, of the Department of Labor, the administration admits there are men who need work. The way to get it, says the Secretary, is to go to Kansas and Missouri and work in the harvest fields.

Skilled workmen in the iron and steel industry, out of employment by reason of the Democratic tariff law opening American markets to the products of cheap foreign labor, say it is not a "rural vacation" they want, but a chance to stay with their families and support them, which the present industrial condition has made it impossible for them to do.

No rush for Wilson's popular excursion to the Kansas harvest fields has been reported, as yet.

Bosworth Says he has Good Temperance Record, But Facts Show Contrary.

BOSWORTH Says:-

"No one could have done more for the cause of temperance in Kentucky than he." The facts are to the contrary. His whiskey record has been so thoroughly shown up that further comment is unnecessary; but in answer to the above assertion from him, we quote the following letter from Rev. N. A. Palmer, the State Superintendent of the Anti-Saloon League of Kentucky, whose sole business is to fight the liquor traffic, and who is the head of the temperance forces in Kentucky and who knows whereof he speaks. His letter follows:

KENTUCKY ANTI-SALOON LEAGUE

REV. NORMAN A. PALMER, State Superintendent

REV. H. CLAY SMITH, Assistant Superintendent

Louisville, Ky., June 19, 1914.

To the Pastors of the Eleventh Congressional District.

Dear Brother and Fellow-worker:-

With National Prohibition the issue at Washington, we cannot overestimate the importance of sending men to the United States Senate and to Congress who will aggressively support that and every other temperance measure.

Caleb Powers, the present incumbent from the Eleventh District, has faithfully supported every effort of our leaders at Washington to secure temperance legislation. When, at any time, a contest was approaching on any issue involving the liquor question, our leaders have always known that they could absolutely depend on Mr. Powers.

His opponent, Senator Joe Bosworth, during the four sessions in the Kentucky Senate has been just as reliably faithful to the liquor interests. He has occasionally voted for a temperance measure as he did this year for the Frost Twenty-five Percent Petition Bill, but not until after he had resorted to every possible means to prevent it from coming to a vote, hoping thereby, to defeat it, one of the most unprincipled tricks practiced in legislative halls.

We are informed that Senator Bosworth is telling the temperance people in his canvass for Congress that he supported the Frost Twenty-five Percent Petition Bill at the last session. If, in the light of facts, and the spirit of his conduct toward that measure, he is saying that he supported the Frost bill, no more gross misrepresentation is conceivable. Our people must not be deceived into voting for Mr. Bosworth by such smooth misrepresentation.

I have personally made a careful study of the conduct of Mr. Bosworth during the last three sessions of the Legislature and have failed to discover at any time in his conversation or conduct, anything which would in the least mar his most congenial relation to the liquor interests, or should provoke, or inspire an impulse of confidence on the part of temperance people.

Sincerely yours for a saloonless State and Nation,

N. A. Palmer, State Superintendent

Senator Bosworth's Whiskey Record

Senator Bosworth's Whiskey Record, Showing When and How he Voted on the Whiskey Question. He Cannot Deny This Record.

Inside Lights on Senator Bosworth's Whiskey Record

Senator Bosworth has recently published what purports to be his true record in the Kentucky Legislature.

He has tried to deceive the voters of the district by publishing but a part of his record. The people are entitled to know the whole truth. A half truth is the most dangerous form of falsehood. He has misrepresented Powers by asserting that his record in Congress is a blank. Powers in his speech, which was recently sent out over the district, shows how absurdly false Bosworth's statement is about him in that respect. The following statement showing Bosworth's true record will convince the most skeptical that Senator Bosworth is not "toting" fair with the voters in the Eleventh district by pretending that his record is one thing when in fact it is quite another. The following is some of the things that the record shows; and Senator Bosworth cannot and will not deny a single statement here made:

On March 1, 1906, on page 1124 of the house journal, Senator Bosworth is recorded as voting against raising from \$200 to \$225 the license of persons engaged in the retail sale of spirituous vinous and malt liquors.

On March 7, 1906, page 1340, house journal, Bosworth is recorded as failing to vote for house bill 252, being "An act to regulate the carrying, moving, delivering, transferring, or distributing of intoxicating liquors into local option districts."

On March 8, 1906, on page 1410 of the house journal, Bosworth is recorded as having voted against a local option bill providing a means whereby a local option election could be called in any county containing a city of the first, second, third, fourth or fifth class upon petition of 25 per cent of the voters of said county.

On March 13, 1906 on page 1629 house journal, Bosworth, is recorded as voting to make the rectified whiskey license one-half of one cent per wine gallon, instead of three-fourths of one cent per wine gallon.

On March 26, 1906, on page 1777 house Journal, Bosworth is recorded as voting to make the license tax on compounded, rectified and distilled spirits one and one-quarter instead of one and one-half cents upon every wine gallon.

On March 4 and 5, 1908 on pages 798, 799 and 800, Senate journal Senator Bosworth is recorded as voting three times against the temperance people and with the whiskey interest on Senate bill 56. It was a bill to amend the law for selling intoxicating liquors; on page 808 Senate journal, Senator Bosworth is recorded as voting against the bill.

On March 19, 1908, on page 1179 Senate journal, Senator Bosworth is recorded as voting against calling up the County Unit bill for passage. He cast another vote the same day against the temperance people.

On Jan. 17, 1910 page 180 of the Senate journal, the following pairs were announced in the Senate: Mr. Hillard Smith with Mr. Joseph F. Bosworth, Mr. Bosworth if present, would vote against the advancement and passage on Senate bill No. 1, the County Unit bill, which Mr. Smith if present, would vote for.

On Feb. 17, 1910, Senator Bosworth and 15 others voted against advancing the bill and placing it in the orders of the day for passage, while 14 others voted the other way. If Senator Bosworth had voted for the bill and not against it, the vote would have stood 15 to 15, with a Republican Lieutenant Governor, Mr. Cox, favorable to temperance to cast the deciding vote on Feb. 11, 1910, killed the County Unit bill, then Senate bill No. 1.

On Feb. 23, page 783, Senate journal, Mr. Thomas moved that Senate bill 44, the County Unit bill "by read the third time and placed upon its passage." Senator Joe F. Bosworth was the first man to vote against this proposition. (See Senate journal p 784.)

Mrs. J. H. Shy, President of the Woman's Christian Temperance Union, had this to say about Senator Bosworth's vote in defeating the County Unit bill:

"Mr. Bosworth claiming to be a Republican, voted against the County Unit plank in the Republican platform. All the while he voted in the interest of the whiskey people."

Senator Joe F. Bosworth introduced Senate bill 177 (see page 228 Senate journal to change the classification of certain cities and towns in Kentucky. House bill No. 30. I will let Mrs. Shy, President of the Woman's Temperance Union, tell you about this bill. She says:

"On page 1163, Senate journal, after this famous Committee on Religion and Morals, of which Senator

Bosworth was a member had put to sleep all all local option bills that had been offered, took up, presented to the Senate, and passed House bill No. 30, which was an act to reclassify the cities and towns of the Commonwealth. Sen. Bosworth voted for the bill, helped to pass it, and thereby extended and widened the territory in which the county unit did not apply.

On March 15, 1910, page 1045, Senate journal, Senator Bosworth and six others are recorded as voting against, while 21 other Senators voted for Senate bill 192, which was an "act defining public drunkenness and fixing punishment therefor."

What a record for one session of the Legislature. No wonder the temperance people are up in arms against Senator Bosworth.

On January 25, 1912, page 417, Senate journal, Senator Bosworth is recorded as voting against a bill providing for an extension of local option.

On March 5, 1912, page 1451, Senate journal, Senator Joe F. Bosworth failed to vote for Senate bill 120, which was an "act making it unlawful to purchase, procure or deliver, spirituous, vinous and malt liquors in local option territory."

On March 6, 1912, page 1501, Senate journal, Senator Joe F. Bosworth failed to vote for Senate bill 260, which was an "act prohibiting the sale of intoxicating liquors within 400 yards of normal schools and State colleges."

On March 7, 1912, page 1546, Senate journal, Senator Bosworth is recorded as voting for Senate bill 92, which was an "act to provide for taking the sense of the legal voters as to whether bona fide distillers be granted a limited license to retail spirituous liquors of their own manufacture at or near the distillery and not be used on the premises. In other words, to make every distiller in the land a saloon keeper. Not only has Senator Bosworth voted wrong on the liquor question, but he has voted wrong on a good many others, which will appear later.

It takes nerve on the part of Sen. Bosworth to ask an overwhelming temperance district to send him to Congress after having to his credit such a record. No wonder that Senator Bosworth and his friends are setting up a howl because Powers exposed his record and sent it broadcast over the district. I do not blame Senator Bosworth for howling. If I had such a record, I would not want it exposed either.

AGRICULTURAL COLLEGE EDITORS

ANNUAL CONVENTION WILL BE HELD AT STATE EXPERIMENTAL STATION.

WILL VISIT STOCK FARMS

First Convention Held at Urbana, Ill., Last Year—Kentucky First State to Install Service.

Western Newspaper Union News Service, Lexington, Ky.—The annual convention of agricultural college editors of the United States will meet in Lexington, at the experiment station. This association held its first convention at Urbana, Ill., and perfected its organization. T. R. Bryant, Kentucky agricultural experiment station, represented Kentucky and, along with several others, presented a formal invitation from Lexington to the convention to meet here in 1914. A committee was appointed to look into the claims of the several states and decided in favor of Kentucky. It has been found necessary by all the leading agricultural colleges of the United States to have, in connection with their extension service, an editor whose duty it is, through newspapers, newspaper syndicates, bulletins and otherwise, to give to the farming public the instruction the experiment stations wish to have put into practice.

BACK THE ONE PRICE MEASURE

Pharmaceutical Association Urge Representatives to Support Bill.

SUCCESSFUL CONVENTION

Tobacco Men's Association Conclude Their Annual Meet.

Louisville, Ky.—Unanimous in appreciation of the entertainment provided for them and the opinion that the holding of their fourteenth annual convention Louisville is bound to result in much benefit to the organization and to the trade at large the members of the Tobacco Men's association of the United States, who were in session here, the meetings were concluded at Lexington. The principal business at Lexington was the election of officers and a number of entertainments including visits to several of the famous stock farms of the neighborhood. As the guests of the Louisville convention and Publicity League, the delegates enjoyed a banquet at Magnolia Garden which they pronounced the final touch to the matter of hospitality and good fellowship. R. W. Brown, managing director of the convention and publicity league, presided as toastmaster, complimenting the members of the association on their efforts to establish and maintain high standards of education and business conduct and congratulating them on the wisdom with which they elected to hold their business sessions and have their enjoyment in Louisville and selecting Lexington as an ideal resort for rest and recuperation from their labors.

HUMAN SKELETON FOUND

Children Gathering Flowers Make Gruesome Find.

Cynthiana, Ky.—A human skeleton was discovered by the children of Mrs. Wiley Taylor in the woods of T. T. Taylor, on the Falmouth pike, whither they had gone to gather wild flowers. Following an investigation by Coroner Rees, who was notified of the discovery, when the children returned home, it was declared that the remains were those of Daniel Morrison, a man about 70 years old, the identity being established by bits of clothing and an overcoat that was recognized by one of his sons as belonging to his absent father. Morrison has been missing since May 2. His children concerned themselves little, thinking he had gone to Missouri for a summer outing, or had taken a trip to the mountains. The remains were taken to Cynthiana.

SHORTER RIPS PATH THOUGH WISCONSIN, LEAVING MANY DEAD AND HEAVY DAMAGE

More Than a Score of Persons Were Killed and at Least Seventy-five Injured.

Milwaukee, Wis.—More than a score of persons were killed and at least 75 were injured when what is said to have been the worst storm in the history of Wisconsin swept over the entire state.

The property loss is estimated at \$1,500,000. This does not include the damage to crops, which is expected to reach into the thousands.

The most serious single storm casualty was at Emmet in North Central Wisconsin, ten miles from Mosinee, where five persons were killed and 25 injured, ten probably fatally. The cyclone struck a barn in which a wedding dance was in progress. Only the bride and groom escaped unhurt.

At Mosinee the damage is estimated at \$50,000. There scores of barns and farm homes were destroyed. In Outagamie county four persons were killed and an asylum for the insane was wrecked. The inmates, however, were rescued by firemen and guards.

There was a loss of \$50,000 at Minnesota City, across the river. Here the property loss was \$150,000. One person was killed and three injured.

KING PETER I QUILTS

Aged Ruler of Serbia Steps Down and Out.

Abdicates Throne in Favor of Second Son, Prince Alexander—His Health Is Reason Given.

Belgrade, Serbia, June 25.—King Peter I of Serbia abdicated the throne. The king's abdication was made in favor of his second son, Prince Alexander, as his eldest son, Prince George, in 1909, renounced his right of succession to the throne.

The king's action was taken because of ill health. A royal proclamation announcing the fact is to be issued.

Peter Karageorgevitch was proclaimed king of Serbia the morning after the brutal assassination of King Alexander and Queen Draga in the palace at Belgrade in June, 1903. The conspirators against Alexander, including some of the leading members of the government and officers of the army, having ascertained that Peter would accept the throne if it became vacant, invaded the palace to demand Alexander's abdication and encountered resistance. The king and queen were shot down and the body of Draga, whom Alexander had married in defiance of his ministers, was slashed with sabers.

Assessments Are Announced.

Assessments of the total capital of the four big railroads which now have suits pending in the United States court here to restrain the collection of part of their franchise taxes for 1914 and 1915, were completed by the state board of valuation and assessment. These assessments are practically the same as for 1913. The Louisville & Nashville was assessed at \$72,000,000, instead of \$74,829,000, as last year; the Chesapeake & Ohio at \$20,965,000, no raise; the Cincinnati New Orleans & Texas Pacific, \$11,000,000, no raise; and the Illinois Central, \$21,500,000, a raise of \$4,000,000. The roads have 30 days in which to appear before the board to protest. The Louisville Gas and Electric Co. was assessed at \$10,000,000 tentatively. The Cumberland Telephone Co. was assessed at \$3,000,000; the American Telephone Co. at \$360,000, and the Kentucky Traction and Terminal Co. at \$1,286,000.

Platform and Officers.

The State Tax League, of which H. M. Froman is president and Howard G. Skiles is secretary, has just issued a statement over their signature to the effect that the platform in which is pointed out the inadequacy of the present tax laws of Kentucky. It calls attention to the fact that the State Board of Equalization has increased the assessment of property in Kentucky \$18,000,000 over last year, nearly all of which, it says, has been added to real estate. It admits as true, in theory, that the present tax laws are sufficient if rigidly enforced as claimed by the State Board of Equalization, but declares that every attempt at stricter enforcement will result in repression.

Books Are Selected.

With the completion of the adoption of high school text books to be used in rural high schools and all others excepting in cities of the first, second, third and fourth classes, the State Textbook Commission finished its work with the exception of signing the contracts. These contracts will be in force for five years. State Superintendent Barksdale Hamlett announced that he will prepare a bulletin immediately instructing school authorities and patrons of the schools exactly what they must do. Old books here before in use in the common schools will be exchanged for the new adoptions at 50 per cent of the cost of the new books.

Over 200 Years Old.

The railroads as we know them today probably originated with the tramways of over two hundred years ago, and in the term tramways it is generally understood to mean street rail ways where vehicles, whether propelled by animal or mechanical power are supported on tracks laid on public highways, and, without interfering with the ordinary vehicular traffic. Records show that the earliest form of railroad in which tram rail was used was in the year 1716, the rail being a flat piece of iron spiked to a longitudinal stringer. This soon proved too weak as the loads increased, the track buckling and becoming rough and uneven.

Different Badges.

Automobile demonstrators will have different kinds of badges from chauffeurs. The distinction between demonstrators and chauffeurs was discussed at length when the board of examiners met for the first time. Commissioner Thomas Byars, W. R. Rice, of Louisville, and W. R. Myers, of Columbia, compose the board.

Marriage Has No Parallel.

A marriage that probably has no parallel in the history of the state took place when a near centenarian, Alexander Webb, of the western section of Hart county, took his second wife. He is past 96 years of age. Mr. Webb retains his faculties as well as men usually do at the age of 65 or 70. He has been plowing side by side with other laborers all the summer and has done this for the past 30 years. Recently a tobacco season came to that section and the old man set tobacco. He has been living with his sons.

WOMAN KILLS THREE SNAKES

Louisville, Ky.—Lexington, Ky., sends out the champion snake story, at least so far as the state of Kentucky is concerned. A dispatch from that town to the Philadelphia Record announces that Mrs. Robert Ashcraft, of Boyle county, is the champion snake fighter of Kentucky. Recently three big snakes of the cow-sucker variety crawled into her home and she killed them after a game fight. One snake, which entered from the doorway, was on a bed by the side of Mrs. Ashcraft's small son when she saw him. She attacked the rattle and drove it from the bed. In another room Mrs. Ashcraft saw two other snakes. All showed fight when she secured a hoe, and after a hard tussle killed them all. None of the snakes was under six feet in length. That section, which is near the Kentucky river, has always been noted for its big snakes.

One on Father.

A young minister preached one Sunday to a rural congregation and spent the next day visiting the people. At one house the man of the house was expressing his appreciation of the sermon in very complimentary terms while assisting the minister to put up his team. His little son had followed him and after eyeing the minister a minute or two exclaimed: "Why, papa, you said he was a one hoss preacher, but he's got two horses!"—National Monthly.

Hotel Jones Management Praised

The Hotel Jones is to be congratulated upon the splendid service rendered at the Banquet given on the evening of June 24. It was a most delightful occasion, and the large dining room was lighted in the most artistic style, and the good things prepared and served by Mr. Mealy and his estimable wife were of the most delicious kind; while the revelry of the feast was going on the Orchestra furnished the most delightful music.

It is hoped that these good people will always be with us for they are of that kind that do things when called upon so to do, and we are sure that when an occasion of this kind is wanted and needed that they will be right on the job.

Colds

should be "nipped in the bud", for if allowed to run unchecked, serious results may follow. Numerous cases of consumption, pneumonia, and other fatal diseases, can be traced back to a cold. At the first sign of a cold, protect yourself by thoroughly cleansing your system with a few doses of

Mr. Chas. A. Ragland, of Madison Heights, Va., says: "I have been using Theo. Ford's Black-Draught for stomach troubles, indigestion, and colds, and find it to be the very best medicine I ever used. It makes an old man feel like a young one."

Card of Thanks

To the editor of the Mountain Advocate, we wish in our feeble way to thank the good citizens of Trooper and Brush Creek for their many acts of kindness to us during the sickness and death of our daughter, Lou Chelsa McDonald, and to assure them that these deeds of kindness shall never be forgotten by us. We hope that in some way we may be able to repay them, for their kindness, for the citizens of this community, are the purest and best that God in his wisdom has let live in this great and good land. We cannot find words adequate to express all we wish to say, but we certainly appreciate all that has been done for us.

Respt. Yours,

Charles C. McDonald and family.

WHY WEAK LUNGS?

The toll of tuberculosis is claiming more than 350 victims every day in the United States, yet few realize their grave condition until the critical period arrives. Overwork, worry, weakness after sickness, catarrh, bronchitis, tender throats—all exert the weakening influence that invites consumption. To guard against consumption, thousands of people take Scott's Emulsion after meals because its rich medicinal nourishment strengthens the lungs, puts vigor in the blood, and upbuilds strength to resist tuberculosis. Scott's Emulsion is nature's strength-builder. Refuse substitutes.

Good Backs for Bad

Barbourville Residents Are Learning How To Exchange the Old Back For a Stronger One.

Does your back ache, feel weak and painful? Do you suffer headaches, languor and depression?

Is the urine discolored, passages irregular? The kidneys may be calling for help. Weak kidneys cannot do their work. Give them the help they need.

To cure kidney backache you must cure the kidneys.

Use a tested and proven kidney remedy. Doan's Kidney Pills have stood the test. Convincing proof of merit in the following endorsement:—

Robert Root, butcher, Manchester Street, London, E.C., says: "My back often started aching and nothing seemed to stop the trouble. The kidney secretions were scanty and I realized that my kidneys were in bad shape. I heard so many people praising Doan's Kidney Pills that I decided to try them and got a box. They made a great improvement from the first and two boxes cured me. Another of my family also used Doan's Kidney Pills with good results. I gladly confirm the statement I gave some years ago praising them."

Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Root had.—Foster-Milburn Co., Props., Buffalo, N. Y.—Adv.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure manufactured by F. J. Cheney & Co. Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 1 drop to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer on hundred dollars for any case it fails to cure. Send for circulars and testimonials.
